

e-Granthalaya

How to Update the Software in Client PC

Please follow the steps given below:

1. This update will only be applicable for Client software (data entry program) of e-Granthalaya and not for Database.
2. Download the zip file from the <http://mcitconsortium.nic.in/eGranth.htm>
3. Before running the setup program, please copy the “dbconn.udl” file from the location (C:\Program Files\Granth\) to desktop or in any folder. This file is used to make the Client software connectivity to the database.
4. Uninstall the previous copy of the e-Granthalaya software / remove the folder from location (C:/Program Files/Granth/)
5. Unzip the zip file downloaded from the web site (e-Granth_Soft.zip)
6. Run the “Setup” file from unzip folder / e-Granth sub-folder
7. Follow the instruction given in the “Installation Guide” available on the same web site
8. If it asks for Over-write , press YES to over-write the old files
9. After finish the installation successfully , copy the “dbconn.udl” file from desktop again to the same location (C:\Program Files\Granth\) replacing the same file
10. In case connectivity has lost please re-connect it using the dbconn.udl file
11. In case any problem please write us
